The One Acquisition Solution for Integrated Services (OASIS) contract is ideal for the procurement of complex professional and engineering services, giving government agencies access to pre-qualified awardees. LinQuest's OASIS portfolio includes systems engineering and integration (SE&I), acquisition support, cybersecurity, operations, strategy, and program management.

LinQuest Corporation

LinQuest's mission is to provide innovative, high-quality technologies, solutions, and services for national security and commercial space integration. LinQuest is focused on engineering development, integration, deployment, operations, and optimization of state-of-the-art command and control and information systems to support network-centric operations. LinQuest delivers performance excellence from initial concept to game-changing capability, providing thought leadership and systems engineering process discipline across the enterprise lifecycle, enhancing multi-domain operations for the future force. LinQuest supports complex decision making through rigorous analytics and modeling of the tradespaces, delivering solutions at all security levels.

Capabilities

- ✈ Systems Engineering and Integration (SE&I)
 - Architecture Definition, Acquisition Support, Model-Based Systems Engineering (MBSE), Digital Engineering, Test & Evaluation
- ✈ Operations, Maintenance, and Sustainment (OM&S)
- ✈ Software Development (SD)
 - Mission Planning, Product Development, Systems Engineering, Tool Development, Agile, DevOps, DevSecOps
- ✈ Operations Research (OR) and Decision Support
 - Data Analytics, Modeling and Simulation, MBSE/Digital Engineering
- ✈ Cybersecurity Engineering, Defensive and Offensive Cyber
 - Development, Operations, and monitoring to address Cyber and Security vulnerabilities
- ✈ Joint All-Domain Command and Control (JADC2)
 - Systemic enhancement of command and control enterprise
- ✈ Mission Planning
 - Open architecture to support mission commander's toolkit
- ✈ 5G Wireless and Satellite Communications. Quantum Communications.
- ✈ Artificial Intelligence/Machine Learning (AI/ML)
 - Data-driven decision making

OASIS Unrestricted Contract Information
